11. If you have any suggestion for improving syllabus, please state here.

26 responses

The syllabus of CCBOT102 and CCBOT103 should be modified keeping in mind the NET syllabus

Initial semesters syllabus should be specific and short that it could covered on time

No of lectures should be increased or contents may be decreased. Duration of the practical exam is not sufficient

New trends in the subject be given place.

Syllabus has certain topics of intermediate standard that should be removed

The content is appropriate for sem I, however more practical/project based approach should be included in next Board of Studies.

It is balanced.

Needs to make market oriented

Ranchi University syllabus is being followed by us and scope of revision is less. So, we are giving students extra in order to make them learn useful things

Needs to update

Practical is missing, Practical is compulsory in Financial Accounting at present scenario because accounts is maintain with computer not paper and pen.

Syllabus should be shortened

Clarity of the topics is required for completing the syllabus in given hours of time.

Syllabus needs proper clearance

Some minor changes are required. Self-learning among the students must be included in Vth and VIth Semester.

Some of the content is repetitive which can be substituted .

We have to make some add-on course on the subject to give students the necessary extra knowledge of the subject

New topics could be included.

The SEC (GREEN CHEMISTRY) paper should be given in higher semester. It would be better if they read this paper in sem VII/VIII ,after completing the basic organic chemistry (chemistry of functional groups) in sem II, III, IV ,V Then they will be able to understand the essence of the green synthesis.

Need to improve the curriculum

In future...Syllabus should be revised time to time..

Continuous review of the syllabus is required as per the industry standards and requirements so that employability skills will be developed with in students.

Some of the new technique can be included in syllabus.

It is ok.

We have to give add-on courses to help students get necessary skills

No. of lectures should be increased
